Border Protection

# Western Hemisphere Travel Initiative

## 3 SIMPLE STEPS FOR U.S. LAND BORDER ENTRY:

For more information, please visit [www.GetYouHome.gov](http://www.GetYouHome.gov).

### Stop at beginning of lane & wait for signal.

While stopped, the driver and all passengers should pull out their required travel documents. Wait for a sign to proceed. Note that traffic management may be a bit different, depending upon location. At some, you will see a green light that signals you to go; at others, proceed when the vehicle ahead of you clears, or the officer waves you through.

### Hold card up & drive through to booth.

As you drive through the lane, the driver and all passengers should hold their travel documents up so that the flat face of the card shows through any window on the driver's side of the vehicle. Your RFID-enabled cards\* will be automatically read as you transit down the lane.

\*Travel cards with this technology currently include U.S. passport cards, Enhanced Driver's Licenses, Trusted Traveler NEXUS/SENTRI/FAST cards, and new laser visa/Border Crossing Cards.

### Stop at officer's booth.

Proceed to booth. Stop for inspection at booth and be prepared to show the officer documents for all travelers in the vehicle, if requested.
